DIVYANSHI GUPTA

Full-Stack Developer | .NET Backend | React | Node.js

+91-7017796542 · divyanshi2028@gmail.com · LinkedIn Profile

Professional Summary

Full-Stack Developer with nearly 3 years of combined internship and professional experience building web applications, REST APIs, and database-driven business systems. Hands-on experience with C#, ASP.NET Core, React, Node.js, Angular, SQL Server, and MySQL. Contributed to SaaS licensing, inventory management, e-commerce, and AI-integrated wellness applications, with experience in API integration, JWT authentication, Google OAuth 2.0, and SQL query optimization.

Technical Skills

Programming Languages: C#, JavaScript, TypeScript, Python, SQL/T-SQL, HTML, CSS
Frameworks: ASP.NET Core, .NET, MVC, Razor Pages, React, Angular, Node.js, Express.js, FastAPI
Backend and Security: REST APIs, API Integration, JWT Authentication, Google OAuth 2.0, RBAC, Multi-Tenancy
Databases: SQL Server, MySQL, Stored Procedures, Query Optimization, Dapper
Tools and Practices: Git, GitHub, Azure DevOps, Docker, Postman, CI/CD, OOP, SOLID, Agile/Scrum
AI Integration: ML Model Integration, Trend Analysis, Personalization Workflows

Professional Experience

Software Engineer – Full Stack | Sanskriti IT Solutions Pvt. Ltd., Noida Jun 2024 – Sep 2026

- Developed REST APIs, backend services, authentication workflows, and database operations using C#, ASP.NET Core, and SQL Server.
- Contributed to a multi-tenant License Administration System with feature-based SaaS licensing and role-based access control (RBAC), helping reduce manual license assignment effort by 40%.
- Implemented JWT authentication, Google OAuth 2.0, role-based authorization, and audit logging; optimized SQL queries and stored procedures.
- Improved Angular CMS load time by 35% through lazy loading and API response caching; supported code reviews, testing, debugging, and Azure DevOps CI/CD workflows.

Android Developer Intern | Sanskriti IT Solutions Pvt. Ltd., Noida Feb 2024 – Jun 2024

- Integrated REST APIs for login, signup, and OTP workflows; contributed to code reviews, regression testing, and defect resolution.

Selected Projects

License Administration System

TECHNOLOGIES: *C# | ASP.NET Core | Angular | SQL Server*

Description: Contributed to a multi-tenant SaaS platform for centralized license administration and feature-based access control.

Dating Platform – Full-Stack and .NET Backend

TECHNOLOGIES: *React | Node.js | Express.js | ASP.NET Core | SQL Server/MySQL | JWT | OAuth 2.0*

Description: Developed user authentication, profile management, discovery, and matching workflows. Integrated REST APIs, Google OAuth 2.0, JWT-based sessions, and subscription-based premium features.

Sales Inventory Management System

TECHNOLOGIES: *.NET | Angular/React | SQL Server/MySQL | JWT*

Description: Built inventory and stock-tracking workflows, GST and non-GST invoice generation, modular APIs, and role-based access control.

BellezBuy – E-Commerce Platform

TECHNOLOGIES: *React | Node.js | MySQL | Brevo*

Description: Implemented product catalogue and order-management workflows, integrated payment APIs, and configured transactional emails for OTP verification, password resets, and notifications.

WellMove – AI-Powered Wellness Platform

TECHNOLOGIES: *Python | FastAPI | MySQL | JWT | AI/ML*

Description: Developed user-management and health-data APIs with JWT authentication. Supported personalized recommendations using trend analysis, adaptive goals, and smart notification triggers.

ASP.NET Calculators Suite

TECHNOLOGIES: *ASP.NET Core MVC | Razor Pages | C# | SQL*

Description: Created web-based calculators for EMI, HRA, GST, TDS, auto loans, and net-worth calculations.

Education and Certifications

B.Tech in Computer Science and Engineering Aug 2020 – Jun 2024

Meerut Institute of Engineering and Technology

Certifications: Microsoft Azure Fundamentals (AZ-900) | Microsoft Azure AI Fundamentals (AI-900)
